

GO4SDGs

Regional capacity for
Scaling up Inclusive
Green Economies

Global Opportunities for SDGs West Asia Regional Launching

Bringing initiatives together
for collective impact

Adriana Zacarias Farah
Head and Global Coordinator
Global Opportunities for SDGs (Go4SDGs)
UN Environment Programme (UNEP)

What: will GO4SDGs achieve?

SUSTAINABLE DEVELOPMENT GOALS

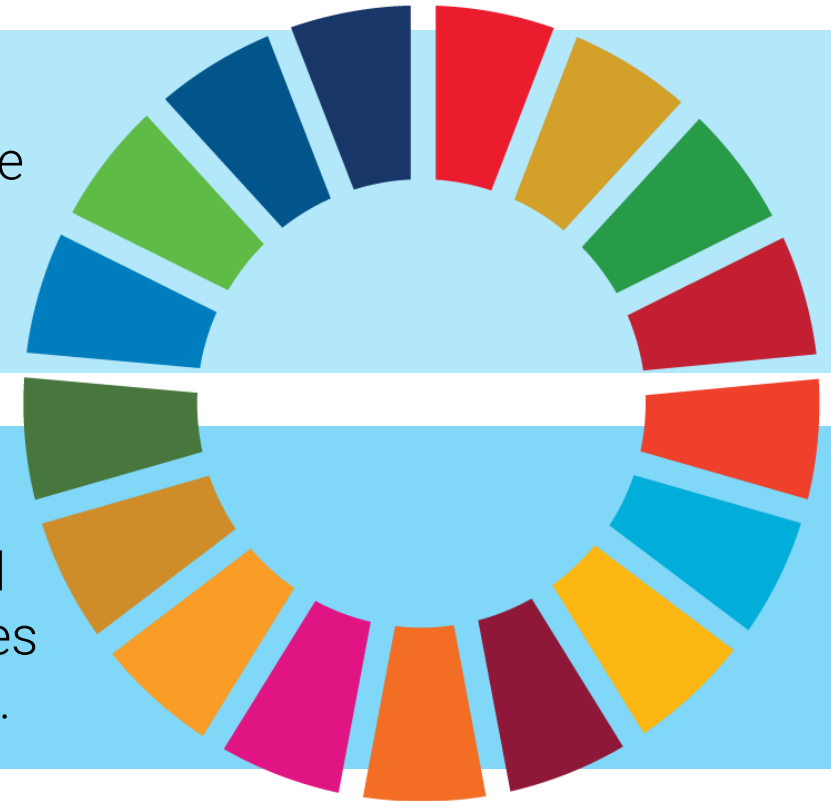

Impact

Countries are transitioning their economies to be sustainable and inclusive, aligned with the 2030 Agenda and the Paris Agreement.

Outcome

Countries are implementing policies, planning, practices and investments for a just transition to inclusive green economies based on sustainable consumption and production patterns.

How: will regional capacity scale up Inclusive Green Economies?

Objectives

- ❖ **Enhancing knowledge and capacity of policy makers** in implementing Inclusive Green Economy and Sustainable Consumption and Production policies and strengthening regional coordination

- ❖ **Advancing Circularity in SMEs and access to finance** to integrate IGE and SCP approaches in core business activities.

- ❖ **Empowering youth** to become future leaders and innovators of sustainable development.

Menu of Services

5 Partners and over 12 Global Initiatives

Climate and Biodiversity Solutions for the 2030

Agenda

Advocacy & Science based knowledge	Assessments & Policy design	Trainings & Capacity Developments	Sectors
33	45	43	10

Tools to “build back better”

Decarbonizing economies for sustainability

Fiscal policies for economic recovery

Sustainable infrastructure in the recovery process
