Workshop on the Implementation of the SDG Indicator Framework in the ESCWA Region 5-6 April 2017 Beirut, Lebanon

The Economic and Social Commission for Western Asia and the United Nations Statistical Commission are jointly organizing the Workshop on the Implementation of the SDG Indicator Framework, which will be held at the UN House in Beirut, Lebanon, on 5 and 6 April 2017. The workshop is organized as post event of the 12th Statistical Committee of ESCWA, which will be held from 4 to 5 April in Beirut.

The overall objective of the workshop is to reflect on the preparation of national indicator frameworks based on national, regional and global priorities, on the roadmaps for the development of a clear set of strategies to strengthen national statistical systems and their deliveries in line with the Global Action Plan, and the reporting systems in support of the Agenda 2030.

The workshop will also launch the 10th Tranche of the Development Account (DA 10) programme on data and statistics for ESCWA member countries. The DA 10 is a comprehensive programme of action centered around strengthening national statistical systems to measure, monitor and report on the sustainable development goals for which 10 entities of the UN Secretariat have joined hands to implement. The Programme aims to strengthen national statistical systems to respond to the data challenges of the 2030 Agenda. Through these efforts, it also supports national capacity to assess its internal readiness for measuring and reporting on all of the 17 Goals, and defining the short-term and long-term actions needed for increasing its capacity to produce accurate and timely data in a sustainable manner.

The workshop is targeting Directors General of national statistics offices, senior national SDG partners, and statisticians from the relevant DA 10 implementing entities, and other global, regional and sub-regional organizations, and partner institutions.
