

“The Mekong River Commission Secretariat is committed to establishing a robust Transboundary Core River Monitoring Network in the Lower Mekong Basin. This network will collect and share critical data on water quality, quantity, and flow, as well as other environmental and socio-economic indicators.

We will prioritize strengthening institutional and technical capacities of Member Countries, enhancing data sharing mechanisms, ensuring data accuracy, and promoting data integration into planning and decision-making”

Anoulak Kittikhoun, CEO of the Mekong River Commission Secretariat

**Transboundary

Coalition**

**Get inspired and make your commitment
towards the UN 2023 Water Conference**

“We will work closely with our Member Countries and partners to ensure the effective operation of this network and its alignment with global best practices and standards. This commitment will contribute to sustainable development and ensure the long-term health and productivity of the Mekong River system.”

Anoulak Kittikhoun, CEO of the Mekong River Commission Secretariat
