

Title of commitment : Produce and disseminate open, global groundwater datasets

Arnaud Sterckx, International Groundwater Resources
Assessment Centre (IGRAC)

<https://qgis.un-igrac.org/>
<https://qgis.un-igrac.org/view/ggmn>

Deliverable **By the end of 2023, all data in the *Global Groundwater Information System (GGIS)* are open, including the monitoring data compiled under the *Global Groundwater Monitoring Network (GGMN)***

Delivery date **December 2023**

SDGS covered by commitment

6.3 : Improve water quality by reducing pollution, eliminating dumping and minimizing release of hazardous chemicals and materials, halving the proportion of untreated wastewater and substantially increasing recycling and safe reuse globally

6.4 : Substantially increase water-use efficiency across all sectors and ensure sustainable withdrawals and supply of freshwater to address water scarcity and substantially reduce the number of people suffering from water scarcity

6.5 : Implement integrated water resources management at all levels, including through transboundary cooperation as appropriate

6b : Support and strengthen the participation of local communities in improving water and sanitation management

16.6 : Develop effective, accountable and transparent institutions at all levels

16.7 : Ensure responsive, inclusive, participatory and representative decision-making at all levels

16.10 : Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements
