SDG data availability in the region

Regional training

SDG data availability in the region

Good data coverage related to dedicated international programs

Poor data availability due to:

- Data not produced
- Data not shared nationally
- Data not reported at international level

How to improve SDG data availability in the region?

- **Participate in annual data collection:** UN Crime Trends Survey

→2021 questionnaire was sent to national focal points in early June

- **Share existing administrative data** on homicide, prison, trafficking

- **Conduct household/victimisation survey** to produce key indicators on corruption, violence, access to justice

SDG data availability in the region

Regional training

Objectives of the regional training

- Strengthen the **technical capacities** of the authorities and the coordination between producers and users of data to generate, analyze and disseminate the SDG 16 indicators;

- Strengthen the organizational framework and promote a **"data community"** among data producers and users for the exchange of **experiences and challenges.**
