STATISTICAL CAPACITY ASSESSMENT FOR THE FAO-RELEVANT SDG INDICATORS 2018

SECTION 1 - COVER

Purpose of the data collection:

This questionnaire aims at collecting information on countries' statistical capacity to report on the Sustainable Development Goal (SDG) indicators for which the Food and Agriculture Organization of the United Nations (FAO) is the custodian agency. It collects information on the national coordination mechanisms for SDG reporting, data availability and the needs for technical assistance. The information collected will be used by FAO to improve the SDG reporting process and for planning capacity development activities linked to SDG monitoring. The results will be available at: **http://www.fao.org/sustainable-development-goals/en/**

FAO takes this opportunity to **thank you and your Government** for the assistance in completing this questionnaire and looks forward to receiving your reply by: **18 January 2019**

Please send back your response via e-mail to: **SDG-Questionnaires@fao.org**

Contact person: Ms. Ayça Dönmez, FAO The Office of the Chief Statistician, Tel: (+39) 06 5705 52553

Structure of the questionnaire:

This questionnaire is organized in the following sections, which are organized to be followed in order:

Section 1: Cover
Section 2: Instructions
Section 3: SDG indicators reporting and needs for assistance
Section 4: Data availability and statistical methods
Section 5: Respondent feedback

Please read "Section-2: Instructions" for more details on the questionnaire.

Respondent Information:

This questionnaire should be filled out by **the National Coordinator for SDG Monitoring in your country or, in case he/she was not appointed, by the focal point nominated by the President of the National Statistics Office.** The respondent is invited to fill in the questionnaire in consultation with other relevant national agencies, including line ministries, in charge of producing SDG data.

STATISTICAL CAPACITY ASSESSMENT FOR THE FAO-RELEVANT SDG INDICATORS 2018

SECTION 2 - INSTRUCTIONS

PLEASE READ THIS SECTION CAREFULLY BEFORE PROCEEDING WITH THE QUESTIONNAIRE COMPLETION.

This questionnaire is meant to be compiled by **the National Coordinator for SDG Monitoring or the focal point nominated by the President of the National Statistics Office**, in consultation with other relevant national agencies, including line ministries, in charge of producing SDG data.
This questionnaire only pertains to the following **21 SDG indicators under FAO´s custodianship** (http://www.fao.org/sustainable-development-goals/indicators/en/):

2.1.1	Prevalence of undernourishment
2.1.2	Prevalence of moderate or severe food insecurity in the population, based on the Food Insecurity Experience Scale (FIES)
2.3.1	Volume of production per labour unit by classes of farming/pastoral/forestry enterprise size
2.3.2	Average income of small-scale food producers, by sex and indigenous status
2.4.1	Proportion of agricultural area under productive and sustainable agriculture
2.5.1	Number of plant and animal genetic resources for food and agriculture secured in medium or long term conservation facilities
2.5.2	Proportion of local breeds, classified as being at risk, not-at-risk or unknown level of risk of extinction
2.a.1	The agriculture orientation index for government expenditures
2.c.1	Indicator of (food) price anomalies
5.a.1	(a) Percentage of people with ownership or secure rights over agricultural land (out of total agricultural population), by sex; and (b) share of women among owners or rights-bearers of agricultural land, by type of tenure
5.a.2	Proportion of countries where the legal framework (including customary law) guarantees women's equal rights to land ownership and/or control
6.4.1	Change in water use efficiency over time
6.4.2	Level of water stress: freshwater withdrawal as a proportion of available freshwater resources
12.3.1	Global food loss index
14.4.1	Proportion of fish stocks within biologically sustainable levels
14.6.1	Progress by countries in the degree of implementation of international instruments aiming to combat illegal, unreported and unregulated fishing
14.7.1	Sustainable fisheries as a percentage of GDP in small island developing States, least developed countries and all countries
14.b.1	Progress by countries in the degree of application of a legal / regulatory / policy /institutional framework which recognizes and protects access rights for small-scale fisheries
15.1.1	Forest area as a percentage of total land area
15.2.1	Progress towards sustainable forest management
15.4.2	Mountain Green Cover Index

This questionnaire is organized in the following five sections:

Section 1 - Cover page

This section presents the purpose of the assessment and collects the contact details of the respondent and of the National Coordinator for the SDG Monitoring.

Section 2 – Instructions

This section presents information on how to compile the questionnaire. Please read the instructions carefully before proceeding with the questionnaire completion.

Section 3 - SDG Indicators reporting and need for assistance

This questionnaire collects information on the SDG indicators with FAO as custodian agency. The list of relevant indicators is provided in Section 2. For each indicator, you are asked to indicate whether it is already compiled, or, if not, whether you have plans to compile it. The needs for assistance are also assessed in this section.

Section 4 – Data availability and Statistical Methods

This section collects information on the overall capacity of the country to produce statistics on agriculture, natural resources, household consumption, and economic accounts for agriculture. These data are the basis for the compilation of the SDG indicators under the FAO custodianship.

In Section 4, detailed information are gathered on the main data sources and their periodicity as well as on the classifications used to collect relevant data. The National Coordinator should contact the agencies in charge of producing of such official statistics whenever required.

Section 5 - Respondent Feedback

This section contains a short survey that will help FAO to assess the quality of the questionnaire and identify areas for improvement. We would appreciate any feedback or comments about FAO's Statistical Capacity Assessment for the FAO-relevant SDG indicators.

The questionnaire is composed mainly of **closed-ended questions**. Please choose **the most relevant response** by ticking the corresponding box. In general, only one answer is allowed. Multiple answers are allowed only for some selected questions and such questions are clearly indicated with "**(Multiple responses allowed)".**

You are requested to answer to **all closed-ended questions**. In case you do not have all the relevant information, please consult with colleagues of your organization and other relevant national agencies in charge of producing SDG data in order to complete the questionnaire. For a limited number of questions, the option of responding "Not Applicable" (indicated as "NA" in grey) is provided.

In addition to closed-ended questions, there are also **open-ended questions** asking you to provide further details and comments. Please write down your answer also for those questions.

Skipping rules (i.e. some of the questions are skipped depending on your response to previous questions) are used throughout this questionnaire to help reduce your response burden. The skipping rules are indicated in **red** next to:

(1) the response modality: directing you to go to a specific question; e.g. "**Go to → Q3**", and

(2) the question number: informing you that you should reply to that question if you replied to previous question(s) as indicated.

You are also kindly invited provide additional comments in Section 4 – "Respondent Feedback" regarding the quality of the questionnaire.

At the end of the questionnaire, please make sure that you answer <u>all</u> questions as relevant.

THIS IS THE END OF SECTION 2.
PLEASE CONTINUE TO SECTION 3 – SDG INDICATORS REPORTING AND NEED FOR ASSISTANCE.
