# How is ICPD covered in the post 2030 agenda?

ICPD Beyond 2014  
High-Level Global Commitments  
Implementing the Population & Development Agenda

# Theoretical Framework

## Selecting indicators

Indicators selection is driven from the ICPD beyond 2014 review and the post 2015 agenda for development. Seven sub-indices are considered:

- 1) Dignity and human rights,
- 2) Health,
- 3) Population dynamics,
- 4) Mobility,
- 5) Environmental sustainability,
- 6) Human security, and,
- 7) Governance.

Study was supported by ASRO:  
to construct a composite Indicator to reflect the  
position and status of Arab countries with regards to  
the implementation of ICPD based SDGs within the  
context of the ICPD Beyond 2014 review and the SDGs.

## Why develop an ICPD-based SDG Index?

Population issues need to be grouped under one index and aggregating data on ICPD-based SDGs into a composite index will:

- 1) provide countries with a quick assessment of how they are performing relative to their peers.
- 2) guide national policies and long-term strategies for sustainable development.
- 3) allow countries to benchmark themselves using a single holistic measure that encompasses ICPD-based SDGs.
- 4) support national discussions on operationalizing the SDGs.

## Who will use the index?

- ⊗ Policy/decision makers
- ⊗ Parliamentarians
- ⊗ Politicians
- ⊗ Media

## How to use the index?

- ⊗ On the national level
- ⊗ On the local level
- ⊗ On the sectorial level

## Challenges?

- ⊗ Institutional framework for monitoring
- ⊗ Data availability and data governance

# Data challenges?

## Governance

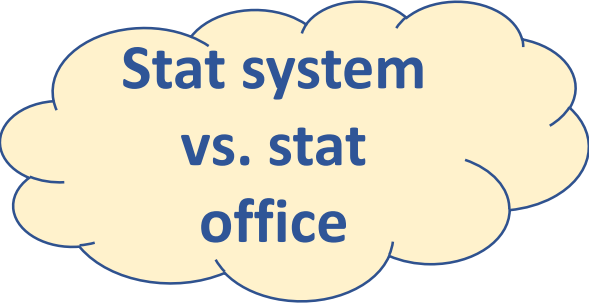

- ⊗ Who should decide on priorities?
- ⊗ Who should collect data?
- ⊗ Who should decide on availability (level/timing)?

## Sustainability

- ⊗ Cost recovery?
- ⊗ Meet the growing demand for data
- ⊗ Bridging the gap between data & policy

## Quality

- ⊗ Integrated part of the stat system
- ⊗ Evaluate data (who – how)
- ⊗ Capacity building

The secret of  
**SUCCESS**  
is to do the common thing  
**UNCOMMONLY WELL.**
