

Technology for Green Growth strategies in Arab Countries

Green Technology Transfer, Adaptation and Investment Required for Implementing SDG 12

Amman, Jordan 31 July 2019

Ahmed Amra, GGGI's Country Representative – Jordan

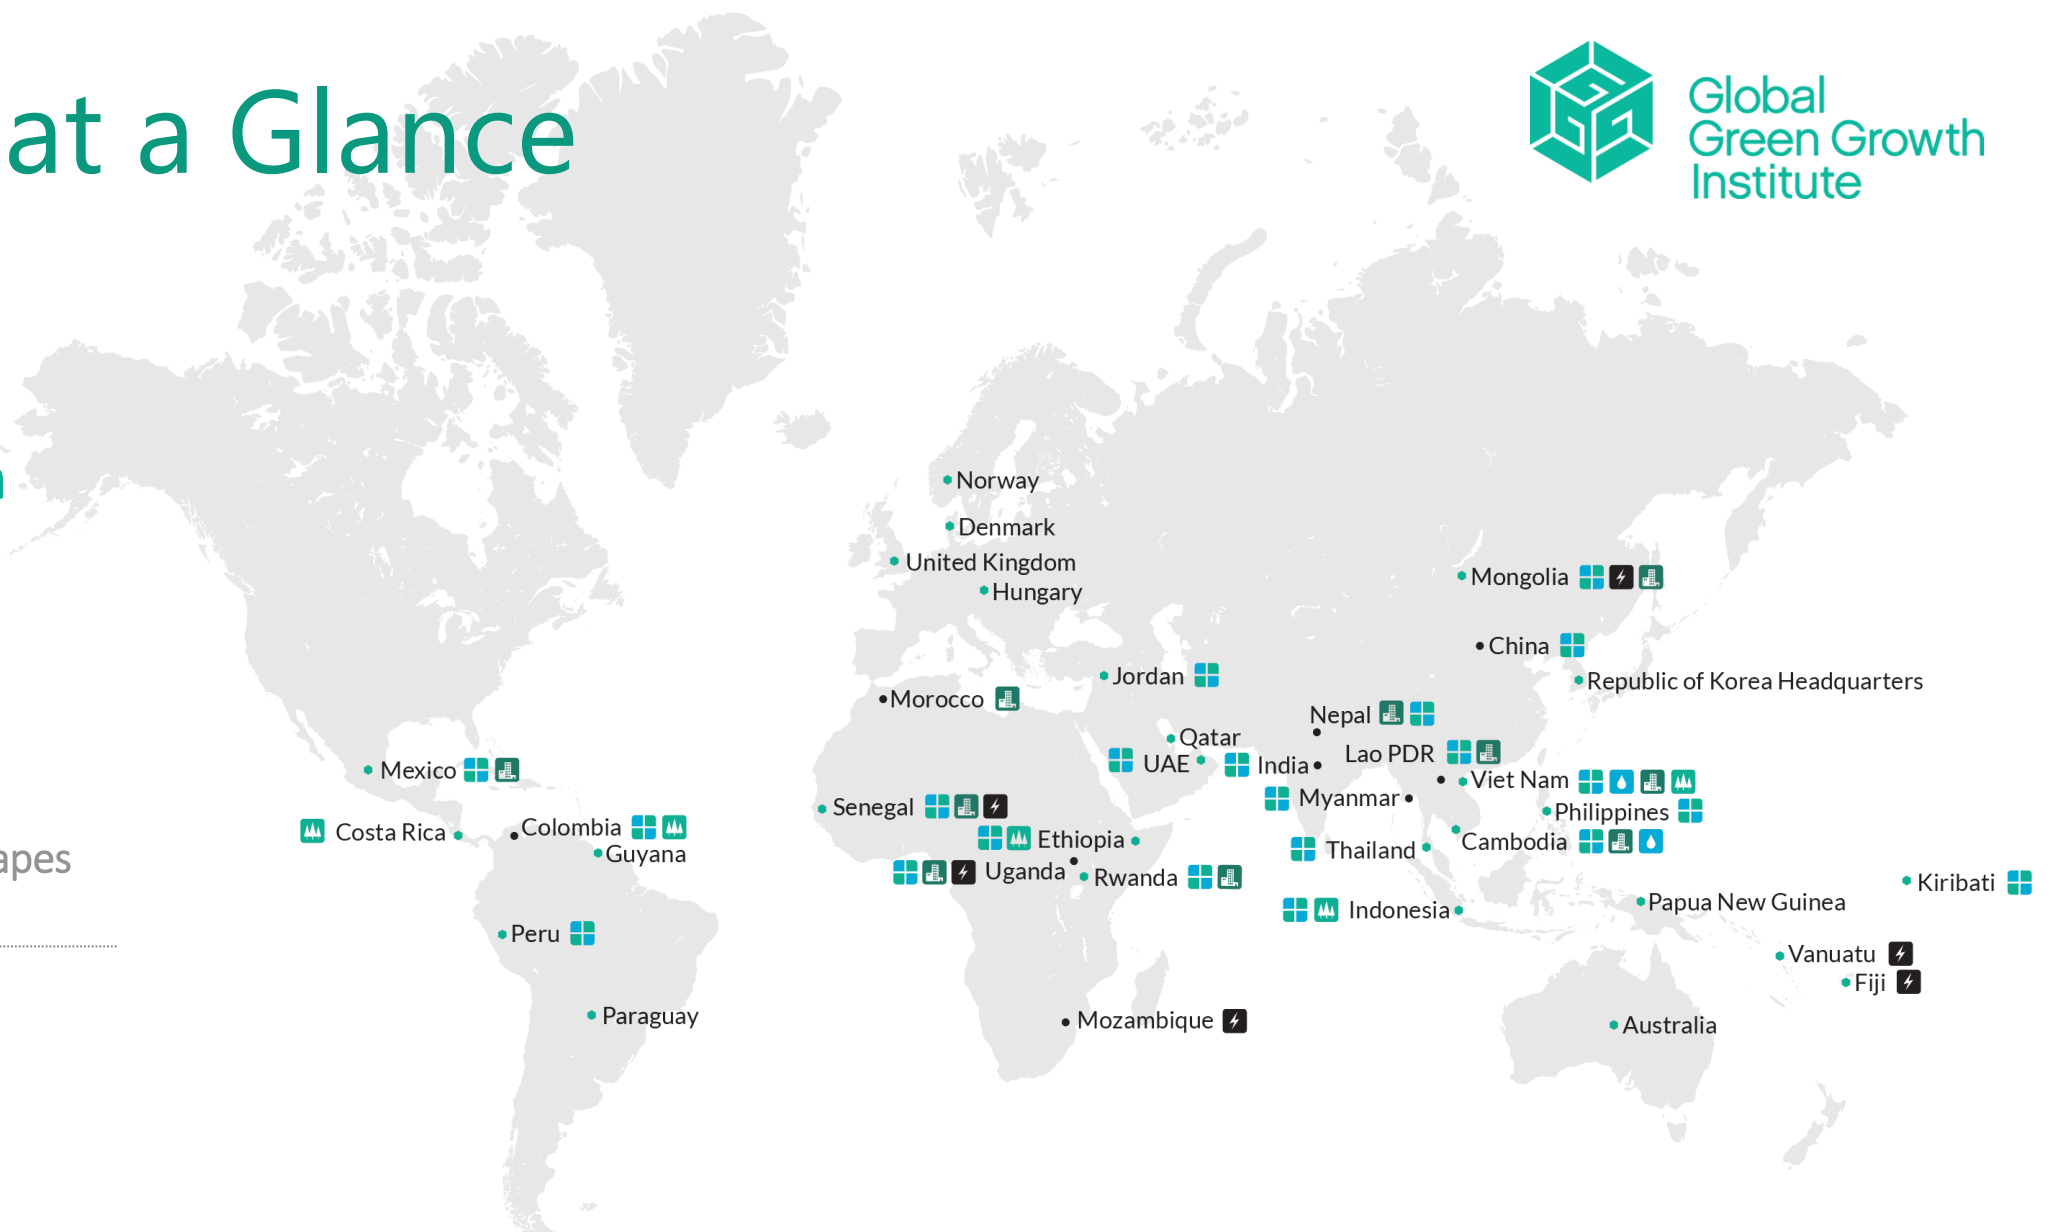

GGGI at a Glance

Maximizing Impact through Four Thematic Priorities:

- Sustainable Energy
- Water & Sanitation
- Sustainable Landscapes
- Green Cities
- Multi-Sectoral
- Member Countries

30 Member Countries

33 Country Programs

And growing...

Global
Green Growth
Institute

Green Growth 101

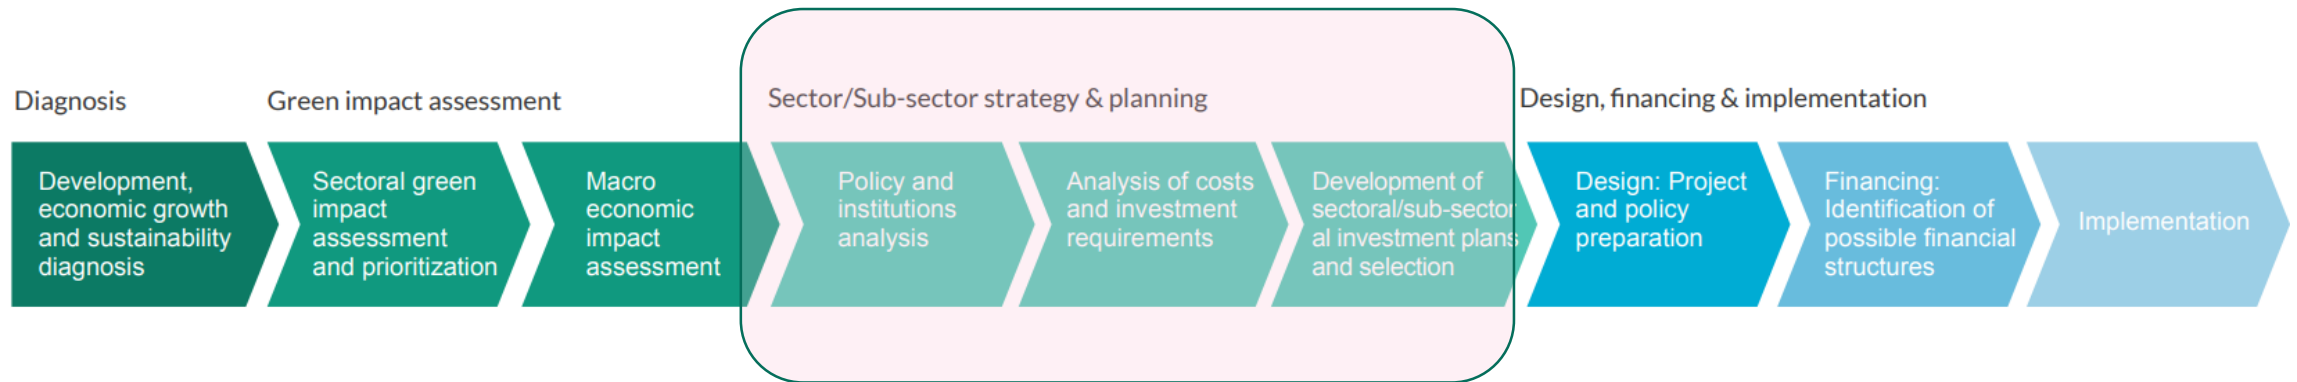

Green Growth Basics

Economic growth which is both *environmentally sustainable* and *socially inclusive*.

- Development approach that *operationalizes a path toward sustainable development*
- Applies *economic solutions* to common environmental and development challenges
- *Aims to leapfrog “brown” development in developing economies*
- Leverages *inter-sectoral linkages and synergies* for better solutions

GGGI's Value Chain

- Planning and Strategizing is the heart of any Green Growth related effort!
- Technology is one of the main areas that Green Growth Plans and Strategies focus on

Challenge & Change

Water Scarcity

High Debt to GDP Ratio

**Relatively Weak Public
Transport System**

**Limited Conventional
Energy**

Food Security Issues

Unemployment

**Weak Solid Waste
Management**

**Quality of
Education**

Technology in GG Strategies

Natural Capital

Resource Efficiency

Climate Change Mitigation and Adaptation

Economic Growth and Sustainability

Social Development and Poverty Reduction

Technology in GG Strategies (in the Region)

Sustainable Transport

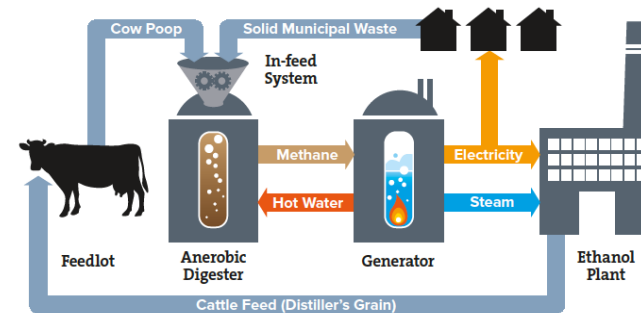

Renewable Energy and Energy Efficiency

Technology in GG Strategies (in the Region)

Waste to Resource

Construction and Demolition waste Management

Technology in GG Strategies (in the Region)

Water Saving

Agricultural Productivity

AND HERE COMES THE
TOP PRIORITY

Thank You
