GCA

the **Global cybersecurity agenda** is a UN backed framework to enhance confidence and security in the information society.

ITU-ARCC To work with the states of Arab Region in development and improving cybersecurity through the development and enhancement of GCA pillars.

1 Capacity Building

2 International Cooperation

3 Legal Measures

4 Organizational Structures

5 Technical Procedures

Cybersecurity Strategy and Governance

- National Cybersecurity Strategy
- Critical National Information Infrastructure Protection
- National Public Key Infrastructure
- Child Online Protection Framework

Cybersecurity Assurance & Compliance

- ISMS Implementation
- ISMS Gap Analysis
- Cybersecurity assessment

Technical Services and Information Sharing

- Threats and Notifications Alert Service (TNAS).

Computer Incident Response

- CIRT Assessment
- CIRT Implementation
- CIRT Gap Analysis

Cybersecurity Capacity Building

- Specialized Training
- Workshops, Conferences, Seminars
- Cybersecurity Scholarships
- High level briefing and awareness
- Exercises and Competitions
- Cyber drills
